

Tanveer Wahid

Vice President, Engineering

About

A transformational servant leader with a holistic understanding of the software development life cycle and over 10 years of professional experience in enterprise software development.

Experience

iDialogs, LLC, Xenia, OH

Partner & Vice President, Engineering / December 2020 – Present

- Coordinated product acquisition transition for enterprise infrastructure rollout with acquiring partner's cloud team
- Program management for DevOps, mobile application, web application, and API development teams across organizations
- Hands-on development for mobile application, web application, DevOps, and API integrations projects
- Collaborated with executive team on business development and scaling strategies reporting directly to the CEO and CTO

Partner, Software Architect & DevOps / November 2017 – December 2020

- Served as HIPAA Security Officer handling security and compliance including HHS security/risk analysis
- Lead architect on cross-platform application built with Xamarin for Android and iOS
- Co-authored HIPAA policies for organization based on HITRUST CSF as well as other policies and procedures
- Helped rapidly develop/implement software updates to assist healthcare workers during COVID crisis

Senior Software Engineer & DevOps / June 2014 – November 2017

- Deployed and managed HIPAA compliant AWS infrastructure migrating from Rackspace while cutting operational costs
- Trained and mentored interns as well as junior developers until seniority throughout my time at iDialogs
